Your responses help us plan and support future summer reading programs and shows our funders the amount of statewide participation in this program. We also use the figures to show how public libraries support the programs of local schools through their reading motivation efforts. We appreciate the effort of those of you who have been returning your forms faithfully year after year, and we invite everyone who hasn't had time in the past to make a special effort this year.

Please fill out appropriate sections of these forms even if you did not use state-provided materials!
